<td>5.1 HEMS – Cindi Stoll</td>
<td>There was no specific 2012 HEMS CQI data numbers to present at the time of the PMAC meeting. However, 9-1-1 scene responses were higher for 2012 and the appropriate utilization of HEMS was near 100 percent. Hospital admits have increased while emergency department discharges have decreased. Dr. Chua questioned the almost 100 percent appropriate utilization of HEMS stating the data needs to be looked at closer. Kent McCurdy stated HEMS has been used for transporting snake bite victims directly to Loma Linda University Medical Center under the base hospital direction. Dr. Ochoa mentioned, HEMS does not need to be utilized for burn patients, they need to be transported directly to the closest paramedic receiving center. Robert Fish stated that protocols could be less ambiguous on where to transport burn patients. Dr. Ochoa stated this will be addressed.</td>

<td>5.3 PRF – Scott Moffatt</td>
<td>The 2014 REMSA Policy Manual is progressing as planned. There is a subgroup from the Policy Review Forum (PRF) working on the Controlled Substance policy. A draft policy will be submitted to PMAC by June 2013. At that time a representative from the DEA will advise what providers need to be in compliance with the law.</td>

<tr>
<td>6.1 Printing Patient Care Reports – Reza Vaezazizi, MD</td>
<td>There was open discussion on issues with printing ePCRs. Some hospital representatives suggested that prehospital personnel print the ePCRs and provide them to ED staff when delivering a patient. This way prehospital information can be available for the physicians when they provide patient care. Other suggestions were discussed using a single dashboard platform to view ePCRs. REMSA will do more research on this topic and it will remain on the agenda for June 24, 2013 PMAC meeting.</td>

<td>7.2 California EMS Core Measures – Laura Wallin</td>
<td>Last year EMSA established a task force to refine the EMS core measures project. This program allows for Statewide tracking of data for studies and benchmarking. The process of submitting the data is more important than deliberating over what data is the correct data. Twenty-eight Core Measures have been published and are available to download at: <a href="http://www.emsa.ca.gov/systems">http://www.emsa.ca.gov/systems</a>. The deadline for the EMS Agency data submission to EMSA has been extended until May 31, 2013. Contact Laura Wallin for further information.</td>

<td>The “As Is” evaluation will be presented in May or June 2013 to the steering group for their analysis and recommendations. Phase two’s estimated completion date will be sometime between 2014 and 2015. In June of 2014, the Board of Supervisors will be making the decision on whether to extend the agreement with AMR or do a Request for Proposal. If anyone wants further information or to give input on the EMS System they can go to the EMS website at: <a href="http://www.rivcocha.org">www.rivcocha.org</a>. Or contact the Abaris Group. Kent McCurdy was recently hired to be the EMS coordinator for Idyllwild Fire Department. Holly Kendal is now working for American Medical Response. REMSA is working with SANSIO, to create an online EMT, Paramedic and MICN credentialing program. Tom McEntee has accepted the Chief Executive Officer position for AMR’s East Region. AMR will be filling the position he vacated. Laura Wallin announced the next Stroke Committee meeting will be on April 4, from 2:00 PM till 4:00 PM, at the Annenberg Center, Rancho Mirage. Laura Wallin announced there will be STEMI data information presentation at the next PMAC meeting. The next Regional EMS STEMI meeting will be April 25, 10:00 AM to 1:00 PM, 2nd Floor, Education Room, Temecula, CA. The Upcoming 2013 Annual Emergency Medical Service Association Services (EMSAAC) Conference will be on May 29 &amp; 30, at San Diego Hilton Resort &amp; Spa. TO: PMAC
FROM: Scott Moffatt, EMS Specialist

We are working on the 2014 Policy Manual and several drafts are available online at www.remsa.us/policy/2014/. Of particular note are the following policies:

- Revised: 3301 Drug and Equipment List
- Revised: 3302 Controlled Substances
- Revised: 3303 Scene Management

There are several more policies that you will find in the 2014 Policy Manual. The above policies are being brought to your attention because of the significant changes that are included.

All of these policies are under development and may change as the annual policy review process continues. The Proposed 2014 Policy Manual will be presented to PMAC in September, with the Revised-Proposed 2014 Policy Manual going to PMAC in November.

ACTION: Review and discuss the 2014 draft policies; and provide feedback through the Policy Review Forum.

SUBJECT: EMSA Core Measures Project

In February, 2013, the EMS Authority (EMSA) sent letters to all Local EMS Agencies (LEMSAs) requesting data on 21 separate Core Measures. The purpose was so that they could begin to evaluate the EMS system in California. The Core Measures were developed by the EMS Authority and further refined by a Task Force consisting of providers, a hospital representative, and LEMSA QI and administrative personnel. EMSA requested data on the years 2009, 2010, and 2011. For those LEMSAs able to provide it, 2012 data was also requested. Initially, LEMSAs were given a date of March 29, 2013 to have all of this data submitted. This date was later pushed back to May 31, and the years were 2010 and 2011 only, with 2012 an optional year to report data. Hospitals and providers were requested to submit their data to Riverside County EMS Agency, so that all data could be aggregated and submitted.

Riverside County participated in the data collection, and submitted data for the years 2010, 2011, and 2012. The State will be publishing the results of this data collection at some point in the future; it is uncertain exactly how or when. The State has said that no individual hospital or provider will be identified in the publishing of the data.

Hospitals and providers should be aware that this data collection at a State level will be continued on an annual basis. The Task Force continues to convene to revise and refine the indicators. In 2014, several more indicators will be added for a total of 28 Core Measures. For those wishing to see the Core Measures, they are available at [http://www.emsa.ca.gov/systems/Core_Measures.asp](http://www.emsa.ca.gov/systems/Core_Measures.asp). There is also a full explanation of the history of the project, the definitions, and resources used in the development of the Core Measures.

ACTION: All hospitals and providers should begin putting processes in place to allow collection of this data with an anticipated date for submission of March 28, 2014.
FOR CONSIDERATION BY PMAC

DATE:     June 11, 2013

TO:       PMAC

FROM:     Brian MacGavin, REMSA Assistant Director

SUBJECT:  PMAC Representative to EMCC

Jim Price’s term as PMAC’s Prehospital Provider Representative to EMCC expires on June 30, 2013.

ACTION:  For PMAC to nominate Jim Price for another term or select another Prehospital Provider Representative for EMCC.
DATE: June 11, 2013

TO: PMAC

FROM: Brian MacGavin, REMSA Assistant Director

SUBJECT: Proposed PMAC 2014 Meeting Dates:

Monday, January 27, 2014, 9:00 AM – 11:00 AM
Monday, March 24, 2014, 9:00 AM – 11:00 AM
