

Dear EMS System Stakeholder,

The EMS Agency/Department of Public Health is seeking a consultant to perform a comprehensive evaluation of the Riverside County EMS system.

The first task is issuance of a Request for Proposals (RFP) for the consultant. That RFP is now posted and may be accessed by going to the County of Riverside purchasing website at: [www.purchasing.co.riverside.ca.us](http://www.purchasing.co.riverside.ca.us), bid number: **HSARC-249**.

Additionally, the County Purchasing Department has assigned two buyers to assist with this RFP: Rick Hai, Procurement Contract Specialist, who can be reached at [rhai@co.riverside.ca.us](mailto:rhai@co.riverside.ca.us), or (951)955-4929 and Sandy Hecker, Buyer II, who can be reached at [SAHecker@co.riverside.ca](mailto:SAHecker@co.riverside.ca) (951)955-4937.

We encourage you to notify any potential vendor that you believe is qualified to complete the work. Please do not refer any potential vendors to the EMS Agency because we will not be interacting with potential vendors until the appropriate time during the RFP process.

As a stakeholder, your input is critical during the evaluation process of the County of Riverside EMS system and we encourage you to share your expertise.

Thank you,

Bruce Barton  
EMS Agency Director  
County of Riverside  
Department of Public Health
