

TO: Riverside County EMS System Stakeholders

FROM: Bruce Barton, REMSA Director

SUBJECT: RUHS ED EMS Driveway Construction

DATE: July 19, 2017

There will be two days of construction involving the ED EMS driveway at RUHS on **Thursday July 20 from 0800-1700 and Saturday July 22 from 0530-1730.**

There will be no ED Entrance before the main entrance (circular drive with the flagpole) off of Cactus. We are asking ambulances to use the entrance off of Nason or utilize the main Cactus entrance (entrance with flagpole). If you enter into the main entrance off of Cactus, go to the right for access to the ambulance entrance. See attached map.

There will be construction workers in the area that will direct parking as needed.

Airships: Please be advised that the construction on July 22 from 0530-1730 will involve the repaving of the walk-way from the heliport. We will have steel plates to place across the walk-way to accommodate the patients and crew. This requires a few minutes to set up so please notify us as soon as possible that you are inbound!

If you have any additional questions please contact Kay Schulz, PLN at 951-486-5648.
