PURPOSE

This policy is part of the system wide EMS Quality Improvement Program (EQIP). Its purpose is multifold:

1. to explain the process of EMT recertification
2. to delineate who is eligible to apply for EMT recertification
3. to define the responsibilities of a certified EMT in the State of California and the jurisdiction of Riverside County EMS Agency (REMSA)

AUTHORITY

[California Health and Safety Code - Division 2.5: Emergency Medical Services \[1797.210.\]](#)
[California Code of Regulations, Title 22, Sections 100056 - 100064, 100080, 100081, & 100083](#)
[California Penal Code, Section 11105](#)

Eligibility and Responsibilities

1. To legally practice as an EMT in the State of California, one must obtain and maintain in good standing a State certification issued by a local EMS agency.
 - 1.1 Persons eligible for recertification include only those persons who hold, or held, an active California EMT certification.
 - 1.1.1 Applicants for recertification whose EMS credentials are expired 24 months or more are not eligible for recertification; in order to regain certification, an EMT basic training class must be successfully completed within two years prior to application.
 - 1.2 Persons holding out-of-state or National Registry certifications, or those holding other California EMS credentials, and who have never held a California EMT certification, must apply for California EMT certification as an initial applicant – refer to policy #1202, EMT Certification.
 - 1.3 Foreign training and/or credentials are not eligible for reciprocity or recertification.

2. Once certified, EMTs are responsible and held accountable for the knowledge and skills delineated in the EMT scope of practice (SOP) as defined by Title 22, Section 100063, of the California Code of Regulations and by local accreditation.
 - 2.1 Local Accreditation
Local EMS Agencies (LEMSAs) may set forth additional knowledge and skills requirements or may restrict the state SOP, as defined by their Medical Director. Local accreditation imparts the responsibility and accountability for these additions/restrictions.
 - 2.2 In addition to competence in knowledge and skills, an EMT is expected to project a professional demeanor in his appearance and attitude. This includes creating complete and appropriate documentation, maintaining composure, being respectful, being cooperative with other agencies, exemplifying high ethical standards, and being a patient advocate in addition to an empathetic listener.

The Application Process

Prior to expiration, applicants for recertification must submit a completed recertification packet. It is strongly urged that applicants for recertification submit all such materials a minimum of 30 days prior to their expiration date.

(Note: The NREMT skills exam is not SCV)

*REMSA has defined standards for acceptable EMS CE. Please review our Continuing Education for EMS Personnel policy, # 1301, to determine if your continuing education hours meet these criteria.

2. After assembling the above materials, the application can be accessed by going directly to the application portal: <https://ca.emsbridge.com/remsa/> or by accessing it through our website, www.rivcoems.org. Once on the website, instructions will guide the applicant through each step. There is also a brief tutorial available. At a specific point in the application process the applicant will be instructed to download/attach the previously described documents. It is not necessary to complete the entire application process in one sitting. The system will save entered data if the application process gets interrupted.
3. The system will hold, but not process an application until the required non-refundable fees are paid. Fees (including the EMT state fee) are to be paid via credit card (Visa, MasterCard, or Discover) through our on-line credentialing system. The payment process is explained on the final page ("Acknowledgment" page) of the electronic application.
 - 3.1 Cash, personal checks, money orders, or cashier's check are not accepted. Only electronic payment via credit card or credited debit card will be accepted.
 - 3.2 For applicants whose employer has a voucher system established with REMSA, the voucher payment method is explained on that same ("Acknowledgment") page.
NOTE: Employer fee vouchers do NOT cover late fees. Applicants are responsible for paying these fees. Applications will not be processed until all fee payments are received by REMSA.
4. At the conclusion of the application process it will be possible to print an abbreviated version of the completed application, should the applicant wish to retain a copy.
5. Only complete applications (completed form with all supporting materials and fees) will be processed. Incomplete application packets remain in the system and a deficiency notice will be sent to the applicant, explaining the missing or incomplete information/document. Once the deficiencies are corrected, the complete application packet will be processed by REMSA personnel.
 - 5.1 In certain cases, individuals may be required by REMSA to submit information or documents in addition to the standard elements as described in item 1. above. Applicants will be permitted one month to submit those additional materials. Applications not complete after 30 days may be considered abandoned, and reapplication (with repayment of fees) will be necessary.
6. Renewal applications need to be received a minimum of 30 days in advance of the expiration date of the current certification period to allow ample time for correction of any deficiencies, resolution of any concerns, processing time, and mailing of the new certification card prior to expiration.
 - 6.1 Persons with a current certification (of any sort) who are new to Riverside County need to allow additional processing time, as we will validate their past credentials with the issuing agencies, and must also wait for notification of fingerprint results.

Effective and Expiration Dates of Certification

1. Recertification will be for a period of not greater than two years.
2. If recertification requirements are met within six months prior to expiration of the current certification period, the effective date of the new certification will be the day following expiration of the current certification. (Example: Current certification expires 9/30, recertification effective 10/1.)
3. If the recertification requirements are met greater than six months prior to expiration of the current certification period, the effective date of the new certification will be the date the applicant satisfactorily completes all recertification requirements.
